EVOLVE EDGE

Turning compliance from a costly burden into a competitive edge

Our mission: To empower regulated businesses by making compliance audit processes radically simpler, smarter, and faster.

Compliance is unavoidable - but it's painfully inefficient and dangerously costly

Audits are slow and complex

Typically 6–12 months of preparation [1]

Heavy reliance on consultants

Costs enterprises $150k–$500k per year [2]

High regulatory penalties

PCI fines up to $100k/month; HIPAA breaches up to $1.5m [3]

Lost innovation and revenue

Compliance delays stall product launches, funding rounds, and contracts [4]

Manual, fragmented processes

Compliance teams waste ~60% of audit time chasing documents [5]

Evolve Edge makes enterprises continuously audit-ready

A compliance automation platform that replaces manual audits and consultants with:

- **Real-time monitoring**
- **Automated evidence collection**
- **Proactive remediation**
- **Instant audit preparation**

The benefits? Time saved, costs reduced, risks eliminated

Audit-ready in days, not months

Preparation cut from 6–12 months to ~3 days.

Massive cost savings

Reduces consultant spend of $150k–$500k per year.

87% efficiency gain

Compliance engineer workload cut from 300 hours to 40.

Proactive remediation

Evolve Edge's auto-patching feature can fix compliance issues as they arise, reducing risk at the source.

Reduced Risk Exposure

Auto-patching fixes compliance issues as they arise, reducing risk at the source.

Multi-framework coverage

PCI DSS, HIPAA, SOC 2, ISO 27001, FedRAMP.

With a $1.3B global opportunity, Evolve Edge will capture $8M in year 1, growing to $1.25B per year by 2030

	2026		2030 (CAGR 22% + expansion)	
	Annual revenue	Description	Annual revenue	Description
TAM	$1.3B	39k organizations globally*	$2.9B	86k organizations globally*
SAM	$456M	15k organizations in US*	$2.9B	86k organizations globally*
SOM	$8M	456 organizations* (1.7% of SAM)	$1.25B	24k organizations* (44% of SAM)

* $10k - $80k per year (small, medium & large organizations)

Only Evolve Edge delivers true continuous, automated compliance

* See Appendix B for details

	Evolve Edge	Vanta	Drata	SecureFrame

Enterprise workflow integration	✓	✓	✓	✓

Evolve Edge's unique blend of compliance expertise and AI-first automation creates lasting defensibility

Founder DNA

Kiel Green combines deep compliance experience (CISA, PCI DSS, HIPAA leadership) with AI/ML and cloud security expertise - rare hybrid credibility that competitors lack.

Proactive Remediation

Unlike all competitors, Evolve Edge won't just monitor - it will fix compliance gaps automatically (auto-patching), embedding the product deeper into customer workflows.

Workflow Stickiness

Tight integrations with enterprise tools (Jira, ServiceNow, Slack, GitHub, AWS, Azure) make the platform the system of record for compliance, raising switching costs.

Multi-Framework Expansion

Customers typically start with one framework (e.g. HIPAA or PCI) and expand across SOC 2, ISO 27001, FedRAMP - driving high Net Revenue Retention (>120%).

Regulatory Lock-In

Compliance is mandatory and recurring; once embedded, Evolve Edge becomes mission-critical infrastructure.

Recurring SaaS revenue with tiered pricing and expansion

Basic

$10k/year ($1k/month)

Self-service, AI chatbot, knowledge base

Pro

$50k/year ($5k/month)

API access, priority support

Enterprise

$80k–$95k/year ($8k/month)

Full compliance bundles, tailored support

Add-ons

$500–$5k per module

Specialised frameworks & features

Clear market demand and customers ready to buy

50%

Interviewed customers ready to purchase now

20%

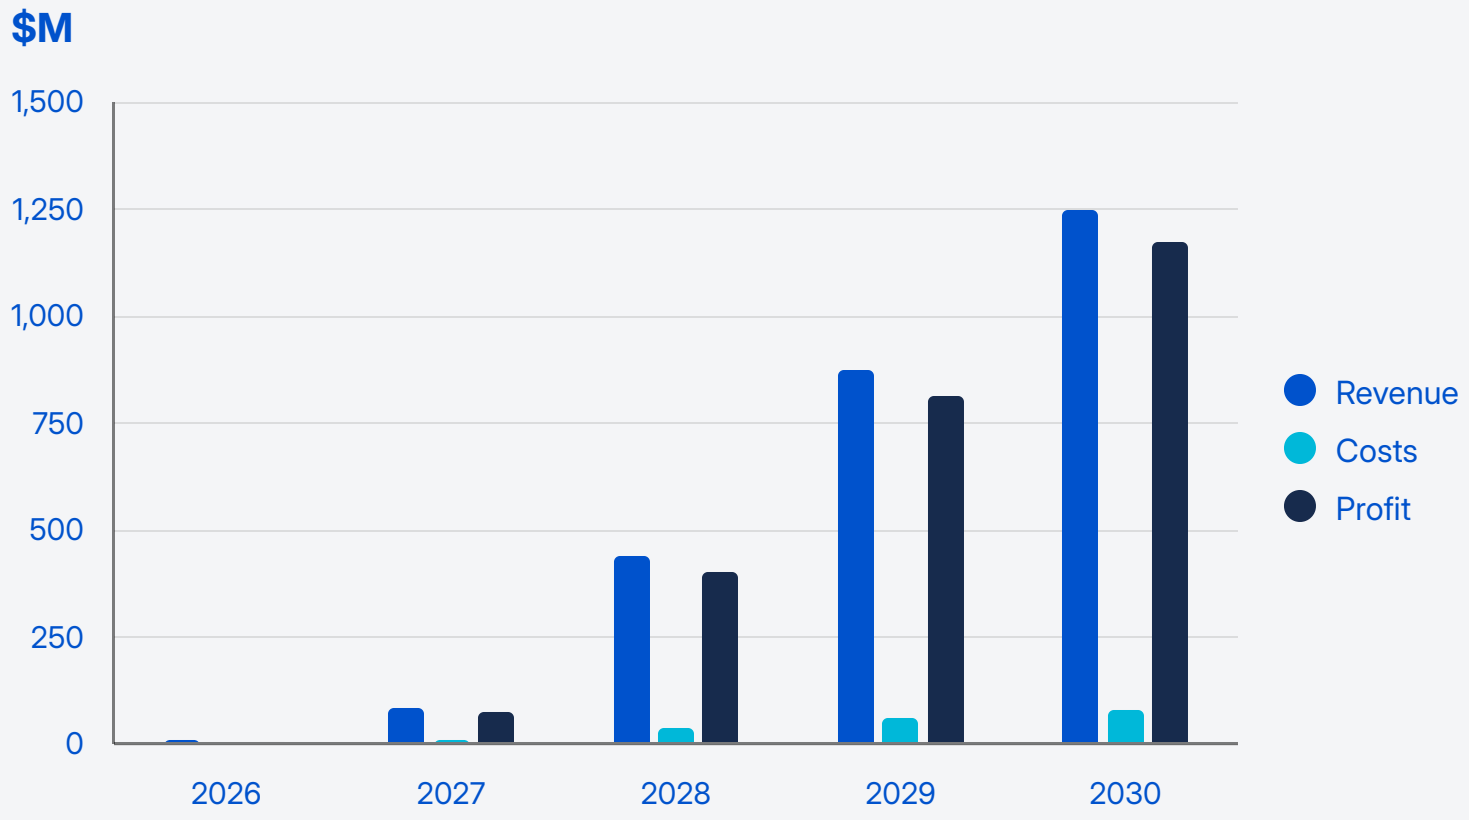
Interviewed customers plan to purchase in the future

* 10 HealthTech & Fintech companies interviewed

Focused U.S. launch, scalable multi-channel growth

Beachhead market	Sales model	Marketing tactics	Expansion
U.S. Financial Institutions (~14,800) and Healthcare Systems (~400 parent entities).	Founder-led, high-touch demos and pilots → conversion to annual SaaS contracts.	Lean, low-cost channels - LinkedIn campaigns, webinars, and founder-led thought leadership.	Europe and Hospitality/Retail in Year 3; global rollout in Year 4, with channel partners (MSPs, consultants, AWS Marketplace).

Profitable in year 1 with total revenue of $2.7B after 5 years



Key metrics

CAC:
Basic: $800
Pro: $1,200
Enterprise: $1,500

Churn:
Basic: 1%
Pro: 0.5%
Enterprise: 0.25%

Rare hybrid: Compliance authority + Technical depth

Kiel Green - Founder and CEO

- Multi-cloud expert: CISA, AWS Architect, Google Data Engineer
- Skilled in Python, Terraform, Kubernetes, NLP/ML, cloud security
- Conducted PCI and HIPAA audits, experienced compliance challenges
- Acclaimed speaker, publisher in AI compliance, RegTech, privacy
- Security architect at Palo Alto, regulated fintech on AWS
- Mission-driven: First-hand experiences in fintech and healthcare convinced him compliance must become a competitive advantage, not a bottleneck

Regulatory pressure is exploding - and AI makes automation possible now

Rising regulatory complexity

PCI DSS v4.0, HIPAA updates, GDPR enforcement, and FedRAMP expansion are driving urgent demand.

Escalating penalties & risk

Fines up to $100k/month (PCI DSS) and $1.5m (HIPAA breaches) make non-compliance untenable.

Inefficient status quo

Businesses spend 33–65 staff hours/month and $12k–$46k/month on compliance.

Proven market appetite

15,000+ companies already use Vanta/Drata-type platforms - proving demand but leaving gaps unfilled.

Technology inflection point

Advances in AI/NLP and deep integrations now enable true continuous audit-readiness and proactive remediation.

From audit-ready MVP to AI-powered compliance leader

MVP

- HIPAA + PCI DSS
- Automated evidence collection
- Compliance dashboards
- Risk detection
- AWS, GCP, GitHub, Slack

Year 1

- SOC 2
- Microsoft Azure + enterprise platforms
- Broader evidence library
- Automated reporting

Year 2

- AI Auditor Copilot
- Regulatory Q&A
- Workflow assistance
- Smart task routing
- Role-based dashboards

Year 3

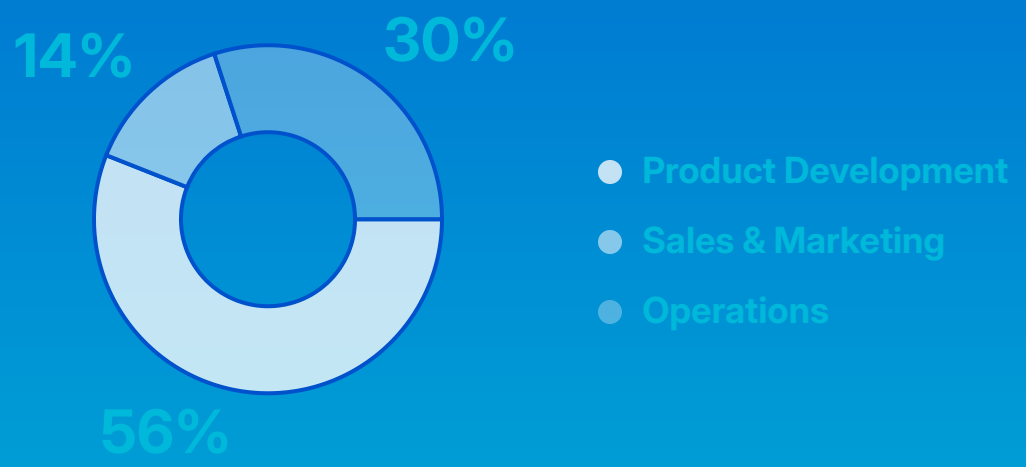
- FedRAMP (U.S.)
- Federal contractors & SaaS providers
- Expanded internationalisation
- Global compliance

Year 4

- ISO 27001
- SOX

We are raising a $482k pre-seed round to develop, launch and reach profitability

Use of funds



Milestones

Launch, revenue, profitability & growth (no future round required)

Appendices

Appendix A1

[1] Audits are slow and complex → typically 6–12 months of preparation:

- Thomson Reuters. (2023). "2023 Cost of Compliance Report." Thomson Reuters Institute (https://www.thomsonreuters.com/en-us/posts/risk-fraud-compliance/2023-cost-of-compliance-report/). This annual report consistently details the increasing time and resource burden on compliance teams, including preparation times.
- Protiviti. (2023). "2023 Next-Generation Compliance Survey." Protiviti (https://www.protiviti.com/us-en/survey/next-generation-compliance-survey). Discusses how manual processes and complex regulations lead to lengthy audit preparation cycles.
- ISACA. (2022). "The State of IT Audit and Risk Management." ISACA Journal, Volume 3 (https://www.isaca.org/resources/isaca-journal/issues/2022/volume-3/the-state-of-it-audit-and-risk-management). A foundational source from a leading audit and compliance association, often citing preparation timelines.
- Vanta. (2023). "The Ultimate Guide to SOC 2 Compliance." (https://www.vanta.com/resources/soc-2-compliance-guide). While a competitor, their public marketing content explicitly states that preparing for a SOC 2 audit "typically takes 3–12 months," validating the claim.
- Drata. (2023). "How Long Does SOC 2 Compliance Take?" (https://www.drata.com/blog/how-long-does-soc-2-compliance-take). Another competitor's resource that confirms the multi-month timeline for audit preparation.

Appendix A2

[2] Heavy reliance on consultants → costs enterprises $150k–$500k per year:

- Gartner. (2023). "Market Guide for IT Risk Management Solutions." Gartner (https://www.gartner.com/en/documents/4583196 (Paywalled)). Gartner data is industry gold standard. For your own knowledge, this report details spending on external consultants.
- Panaseer. (2022). "The Cost of Cybersecurity Compliance Report." (https://panaseer.com/whitepapers/the-cost-of-cybersecurity-compliance/). This report breaks down compliance costs, highlighting the significant portion allocated to external consultants and advisory services.
- Hyperproof. (2023). "The State of Compliance Operations Report." (https://hyperproof.io/resource/state-of-compliance-operations-report-2023/). This survey-based report provides data on how organizations budget for compliance, including outsourced services.
- Deloitte. (2022). "A new era for compliance." Deloitte Insights (https://www2.deloitte.com/us/en/insights/industry/financial-services/future-of-compliance-financial-institutions.html). Discusses the high cost of the compliance function for financial institutions, a key target market for you.
- Secureframe. (2023). "How Much Does SOC 2 Compliance Cost?" (https://secureframe.com/blog/soc-2-compliance-cost). Estimates consultant costs for SOC 2 specifically, which can be extrapolated to a multi-framework, enterprise environment.

Appendix A3

[3] High regulatory penalties → PCI fines up to $100k/month; HIPAA breaches up to $1.5m:

- PCI Security Standards Council. (2022). "PCI DSS Quick Reference Guide." (https://www.pcisecuritystandards.org/document_library). The official PCI DSS documentation outlines the potential fines from acquiring banks, which can be up to $100,000 per month for non-compliance.
- U.S. Department of Health & Human Services (HHS). (2023). "HIPAA for Professionals." (https://www.hhs.gov/hipaa/for-professionals/index.html). The official HHS site details the penalty structure for HIPAA violations, which can reach $1.5 million per year for repeated violations of an identical provision.
- Federal Trade Commission (FTC). (2023). "PCI DSS-Related Enforcement." (https://www.ftc.gov/business-guidance/privacy-security). The FTC has brought actions against companies for misrepresenting their PCI DSS compliance, highlighting the financial and legal risks.
- JD Supra. (2023). "2023 HIPAA Enforcement Review." (https://www.jdsupra.com/legalnews/2023-hipaa-enforcement-review-2972971/). Legal analyses often summarize annual enforcement actions and the staggering costs of settlements.
- TokenEx. (2023). "The Ultimate Guide to PCI DSS Compliance." (https://www.tokenex.com/resources/blog/ultimate-guide-to-pci-dss-compliance/). Clearly outlines the potential financial penalties from card brands for PCI DSS non-compliance.

Appendix A4

[4] Lost innovation and revenue → compliance delays stall product launches, funding rounds, and contracts:

- Accenture. (2022). "Compliance Risk Report." (https://www.accenture.com/us-en/insights/risk/compliance-risk-report).This report discusses how inefficient compliance functions can hinder strategic business objectives and growth.
- Forbes Technology Council. (2022). "How Compliance Delays Can Stifle Innovation And How To Prevent It." (https://www.forbes.com/sites/forbestechcouncil/2022/07/05/how-compliance-delays-can-stifle-innovation-and-how-to-prevent-it/). A direct article from industry experts on the topic, perfect for supporting this claim.
- Reference 3: McKinsey & Company. (2021). "The compliance journey: From focus on oversight to adding value." (https://www.mckinsey.com/capabilities/risk-and-resilience/our-insights/the-compliance-journey-from-focus-on-oversight-to-adding-value). Discusses how a modernized compliance function can enable business velocity rather than hinder it.
- SANS Institute. (2022). "The Impact of Security and Compliance on Mergers and Acquisitions." (https://www.sans.org/white-papers/42232/). Details how compliance postures directly impact funding events like M&A and due diligence.
- TechCrunch. (2023). "Why compliance is the silent killer of startup speed." (https://techcrunch.com/2023/04/19/why-compliance-is-the-silent-killer-of-startup-speed/). Industry publications frequently cover this pain point, especially in fintech and healthtech.

Appendix A5

[5] Manual, fragmented processes → compliance teams waste ~60% of audit time chasing documents:

- Gartner. (2022). "How to Build an Integrated Risk Management Strategy." Gartner (https://www.gartner.com/en/documents/4017590 (Paywalled)). Gartner research often cites that risk and compliance professionals spend a majority of their time on manual data collection and assessment activities.
- MetricStream. (2023). "The State of GRC Report." (https://www.metricstream.com/state-of-grc-report-2023.htm). Surveys consistently show that a lack of automation and integrated systems is the biggest challenge for GRC professionals.
- ISACA. (2023). "State of IT Audit and Risk Management." (https://www.isaca.org/go/state-of-it-audit). This report highlights the inefficiencies in audit processes, including the time spent on evidence gathering.
- Workiva. (2022). "The Cost of Compliance: A Study on the State of ESG and Regulatory Reporting." (https://www.workiva.com/resources/report/cost-compliance-study-state-esg-and-regulatory-reporting). While focused on ESG, the data on manual processes and time spent is highly transferable to security compliance audits.
- KPMG. (2021). "The future of IT Audit." (https://kpmg.com/xx/en/home/insights/2021/06/the-future-of-it-audit.html). Discusses the shift from manual, retrospective audits to continuous, automated assurance, implicitly confirming the current inefficiency.

Appendix B - Competition

Notes	Vanta	Drata	SecureFrame
Automated evidence collection	Some integrations but manual uploads required	Automates evidence for SOC 2 only	Coverage limited to select frameworks
Cost reduction ($150k–$500k saved)	Reduces admin but still needs consultants	Dashboards cut time, not audit costs	Automation reduces some spend, not full consultant costs
Multi-framework coverage	Mainly SOC 2 & ISO 27001	SOC 2, ISO 27001, HIPAA	Broader but shallow coverage
