EVOLVE EDGE AI

Date: March 1, 2025

Platform Specification Document

Version: 1.0 **Status:** Finalized

TABLE OF CONTENTS

1. Document Types — Assessment Types & Audit Types
2. Document Library Structure & Organization
3. Subscription Tier Features & Limits

SECTION 1: Document Types — Assessment Types & Audit Types

1.1 Assessment Types

ASSESSMENT TYPE	DESCRIPTION	TARGET SEGMENT	STATUS
HIPAA Assessment	Health Insurance Portability and Accountability Act compliance assessment covering safeguards for protected health information (PHI).	Healthcare, Healthtech	✅ Live (MVP)
PCI DSS Assessment	Payment Card Industry Data Security Standard assessment for organizations handling cardholder data.	Fintech, Financial Institutions	✅ Live (MVP)
SOC 2 Assessment	System and Organization Controls 2 assessment across Trust Service Criteria: Security, Availability, Confidentiality, Processing Integrity, and Privacy.	Enterprise SaaS	🗓 Year 1
ISO 27001 Assessment	International standard for Information Security Management Systems (ISMS).	Enterprise, International	🗓 Year 1
FedRAMP Assessment	Federal Risk and Authorization Management Program assessment for cloud products/services used by U.S. federal agencies.	Government, Enterprise	🗓 Years 2–3
Cloud Security Assessment	Automated security posture assessment across cloud environments (AWS, GCP,	All Segments	🗓 Years 2–3

ASSESSMENT TYPE	DESCRIPTION	TARGET SEGMENT	STATUS
	Azure).		
AI-Driven Continuous Assessment	Real-time, ongoing compliance assessment powered by AI Auditor Copilot — replaces point-in-time assessments.	Enterprise SaaS, Fintech	🗓 Years 2–3

1.2 Required Document Types Per Assessment

HIPAA Assessment Documents:

- Business Associate Agreements (BAA)
- Risk Analysis Report
- Privacy Policy Documentation
- Security Incident Response Plan
- Workforce Training Records
- Access Control Policy
- Audit Log Reports
- PHI Data Flow Diagrams
- Breach Notification Procedures
- Data Retention & Disposal Policy

PCI DSS Assessment Documents:

- Network Segmentation Diagrams
- Cardholder Data Environment (CDE) Scope Document
- Vulnerability Scan Reports (ASV-certified)
- Penetration Testing Reports
- Security Policy Documentation
- Access Control Matrix
- Encryption Standards Documentation
- Vendor/Third-Party Service Provider List
- Incident Response Plan
- Self-Assessment Questionnaire (SAQ) or Report on Compliance (ROC)

SOC 2 Assessment Documents:

- System Description Document
- Trust Service Criteria (TSC) Mapping Matrix
- Control Activity Evidence Packages
- Risk Assessment Documentation
- Change Management Logs
- Vendor Management Policy
- Business Continuity & Disaster Recovery Plan
- Monitoring & Alerting Configuration Records
- User Access Review Reports
- Exception and Deficiency Reports

ISO 27001 Assessment Documents:

- Information Security Policy
- Asset Inventory & Classification Register
- Risk Treatment Plan (RTP)
- Statement of Applicability (SoA)
- Internal Audit Reports
- Management Review Minutes
- Corrective Action Records
- ISMS Scope Document
- Supplier Security Assessment Records
- Security Incident Register

FedRAMP Assessment Documents:

- System Security Plan (SSP)
- Security Assessment Plan (SAP)
- Security Assessment Report (SAR)
- Plan of Action & Milestones (POA&M)
- Authorization to Operate (ATO) Package
- Continuous Monitoring (ConMon) Reports

- Privacy Impact Assessment (PIA)
- FIPS 199 / FIPS 200 Documentation
- Control Implementation Summary (CIS)
- Incident Response Plan (IRP)

1.3 Audit Types

AUDIT TYPE	DESCRIPTION	FREQUENCY	AUTOMATION LEVEL
Internal Compliance Audit	Self-administered audit to verify alignment with selected framework controls.	Continuous / On-Demand	⚡ Fully Automated
External Readiness Audit	Pre-audit preparation assessment to validate compliance posture before third-party audit.	Quarterly / Pre-Audit	⚡ Fully Automated
Evidence Collection Audit	Automated gathering and validation of evidence artifacts across integrated cloud systems.	Real-Time	⚡ Fully Automated
Gap Analysis Audit	Identification of control gaps between current posture and framework requirements.	On-Demand / Continuous	⚡ Fully Automated
Vendor/Third-Party Audit	Assessment of third-party risk and vendor compliance posture against required frameworks.	Annual / On-Demand	🤖 AI-Assisted
Penetration Testing Coordination	Coordination and documentation support for third-party penetration tests.	Annual	🤖 AI-Assisted
AI Auditor Copilot Audit	AI-driven real-time audit powered by natural language regulatory Q&A and automated remediation.	Continuous	🗓 Years 2–3
Multi-Framework Cross-Audit	Simultaneous compliance audit across two or more frameworks with unified evidence mapping.	On-Demand	🗓 Years 2–3

SECTION 2: Document Library Structure & Organization

2.1 Library Architecture Overview

The Evolve Edge AI Document Library operates on a **Framework-First, Evidence-Driven** architecture. Unlike static folder-based repositories, the library is dynamic — evidence is continuously collected, validated, auto-tagged, and monitored in real-time across integrated cloud and enterprise systems.

2.2 Top-Level Library Structure

```
📁 Organization Document Library
├── 📁 Compliance Frameworks
│   ├── 📁 HIPAA
│   │   ├── 📁 Policies & Procedures
│   │   ├── 📁 Risk Assessments
│   │   ├── 📁 Evidence Artifacts
│   │   ├── 📁 Audit Reports
│   │   └── 📁 Training Records
│   ├── 📁 PCI DSS
│   │   ├── 📁 Network & Infrastructure Docs
│   │   ├── 📁 Scan & Pen Test Reports
│   │   ├── 📁 Access Control Records
│   │   ├── 📁 Evidence Artifacts
│   │   └── 📁 Compliance Reports
│   ├── 📁 SOC 2
│   ├── 📁 ISO 27001
│   └── 📁 FedRAMP
├── 📁 Evidence Repository
│   ├── 📁 Auto-Collected (Real-Time)
│   ├── 📁 Manually Uploaded
│   └── 📁 Third-Party Evidence
├── 📁 Policies & Controls
│   ├── 📁 Information Security Policies
│   ├── 📁 Operational Procedures
│   └── 📁 Control Mappings
├── 📁 Audit Management
│   ├── 📁 Active Audits
│   ├── 📁 Completed Audits
│   └── 📁 Remediation Tracking
├── 📁 Vendor & Third-Party Management
├── 📁 Training & Awareness
└── 📁 Reports & Dashboards
```

2.3 Document Metadata & Tagging Schema

Every document in the library is automatically tagged with:

- **Framework Tag** (e.g., HIPAA, PCI DSS, SOC 2)
- **Control ID** (mapped to specific framework control)
- **Document Type** (Policy / Evidence / Report / Procedure)
- **Collection Method** (Auto-Collected / Manual Upload / AI-Generated)
- **Status** (Compliant / Gap Identified / Under Review / Remediated)
- **Expiration Date** (for time-sensitive documents like scan reports)
- **Integration Source** (AWS, GCP, GitHub, Slack, Azure)
- **Owner** (assigned team member or role)
- **Last Reviewed** (timestamp)

2.4 Integration Sources for Auto-Collection

Documents are automatically pulled and indexed from:

- **AWS** — CloudTrail logs, Config records, IAM policies, S3 bucket configs

- **GCP** — Cloud Audit Logs, IAM bindings, Security Command Center findings
- **GitHub** — Code repository access logs, SAST scan results, commit history
- **Slack** — Security incident communication threads
- **Microsoft Azure** *(Year 1 Roadmap)* — Azure Policy, Defender for Cloud, Entra ID

2.5 Document Lifecycle Management

1. **Collection** → Automated real-time ingestion from integrations or manual upload
2. **Classification** → AI auto-tags by framework, control, and document type
3. **Validation** → AI validates completeness and accuracy against framework requirements
4. **Storage** → Indexed and searchable in the evidence repository
5. **Monitoring** → Continuous status monitoring; alerts triggered on expiry or gaps
6. **Remediation** → Auto-patch applied or remediation task assigned
7. **Archival** → Documents archived post-audit with full chain of custody

SECTION 3: Subscription Tier Features & Limits

3.1 Pricing Overview

TIER	ANNUAL PRICE	TARGET SEGMENT	BEST FOR
Basic	$10,000/year	SMBs, Startups	Single-framework compliance, self-service
Pro	$50,000/year	Mid-Market	Multi-framework, API integrations, priority support
Enterprise	$80k–$95k/year	Large Enterprise	Full compliance bundles, dedicated support

3.2 Feature Comparison Matrix

FEATURE	BASIC ($10K)	PRO ($50K)	ENTERPRISE ($80K+)
Compliance Frameworks			
HIPAA & PCI DSS Support	✅	✅	✅
SOC 2 & ISO 27001	Add-On	✅	✅
FedRAMP Support	❌	Add-On	✅
Multi-Framework (Simultaneous)	1 Framework	Up to 3	Unlimited
Platform Features			

FEATURE	BASIC ($10K)	PRO ($50K)	ENTERPRISE ($80K+)
Real-Time Monitoring	✅	✅	✅
Auto-Patching & Remediation	❌	✅	✅ Advanced
Gap Analysis & Risk Detection	Basic	Advanced	Advanced + Custom
Document Library Access	View Only	Full Access	Full + Custom
AI & Automation			
AI Chatbot & Knowledge Base	✅	✅	✅ Custom
AI Auditor Copilot (Yr 2-3)	❌	❌	🗓 Roadmap
Integrations			
AWS, GCP, GitHub	✅	✅	✅
Slack & API Access	❌	✅	✅ Extended
Microsoft Azure (Yr 1)	❌	✅	✅
Usage Limits			
Users/Seats	Up to 5	Up to 25	Unlimited
Cloud Environments	1	Up to 5	Unlimited
Evidence Storage	10 GB	100 GB	Unlimited
Support			
Support Level	Self-Service	Priority + CSM	White-Glove
SLA Response	72 hours	24 hours	4 hours

3.3 Add-On Modules

MODULE	PRICE	DESCRIPTION
Additional Compliance Framework	$500–$2,000	Add SOC 2, ISO 27001, or other frameworks beyond tier limits.
Vendor Risk Assessment Module	$1,500/mod	Third-party vendor compliance tracking and assessment.

MODULE	PRICE	DESCRIPTION
Penetration Testing Pack	$2,000/mod	Documentation support and coordination for pen tests.
AI Auditor Copilot (Early Access)	$5,000/mod	Early access to AI-driven real-time audit capabilities (Yr 2–3).
White-Label Compliance Portal	$3,000/mod	Branded compliance portal for Enterprise clients.
Extra Storage	$500/50GB	Expand evidence storage capacity.

3.4 Tier Upgrade Path

Basic
Ideal for getting started with MVP frameworks (HIPAA/PCI).

→

Pro
Upgrade when: You need SOC 2, auto-remediation, or Azure support.

→

Enterprise
Upgrade when: You need FedRAMP, unlimited seats, or custom SLAs.
