01. Executive Overview

Purpose: This playbook is the definitive guide for selling the Evolve Edge AI platform. It is designed to equip the sales team with the messaging, qualification criteria, and competitive intelligence needed to close deals effectively.

85% Manual Workload Reduction	**Days** Audit Prep (vs 6-12 Months)
$150K-$500K	**50%**

Consultant Cost Savings

Prospects Ready to Buy Now

Company Snapshot

Founder: Kiel Green
Headquarters: United States
Funding: $482K-$700K SAFE Note
Target SOM (Year 1): $8M

02. Ideal Customer Profile (ICP)

Fintech / Financial PRIMARY

- **Pressure:** Mandatory PCI DSS + HIPAA compliance
- **Size:** 50-500 employees
- **Revenue:** $10M-$500M
- **Key Pain:** Audit costs & delays blocking product launches

Healthtech Systems CRITICAL

- **Pressure:** HIPAA is non-negotiable
- **Size:** 30-2000 employees
- **Env:** Complex multi-cloud setup
- **Key Pain:** Manual evidence collection across siloed systems

Enterprise SaaS VOLUME

- **Pressure:** SOC 2 + ISO 27001 for contracts
- **Stage:** Series B+ Growth
- **Key Pain:** Compliance status blocking enterprise deals

Qualification BANT Framework

Criteria	Qualifying Signal
Budget	$10K-$95K/year dedicated compliance budget available.
Authority	CISO, CTO, VP Engineering, or Chief Compliance Officer.

Need	Currently using spreadsheets/consultants, facing audit in < 6 months, regulatory pressure.
Timeline	Audit scheduled, new framework required immediately, or funding round contingency.

03. Tier Qualification Framework

BASIC TIER ($10K/yr)

Target: SMB, Series A (5-50 emp)

- 1 Framework (HIPAA or PCI)
- Up to 5 Users
- 1 Cloud Integration
- 10GB Storage
- AI Chatbot + Knowledge Base
- 48hr Support SLA

Disqualify if: Needs >1 framework, API access, or >5 users.

PRO TIER ($50K/yr)

Target: Growth, Series B (50-250 emp)

- Up to 3 Frameworks
- 25 Users
- 3 Integrations (AWS/GCP/Azure/GitHub)
- API Access & Auto-Remediation
- Ext. Auditor Portal (1 Seat)
- 8hr Priority SLA

Disqualify if: Needs unlimited users, FedRAMP, or white-label.

ENTERPRISE ($80K-$95K)

Target: Series C+, Gov (250+ emp)

- Unlimited Frameworks + FedRAMP
- Unlimited Users & Integrations
- AI Auditor Copilot (Roadmap)
- White-Label Portal
- 2hr Critical SLA
- 7yr Log Retention

Disqualify if: Budget <$50K or timeline too short for Ent setup.

04. Discovery Call Framework

60-Minute Call Structure

- **0-5 min:** Opening & Rapport Building
- **5-15 min:** Pain Discovery (10 Questions)
- **15-25 min:** Current State Assessment
- **25-35 min:** Future State Vision
- **35-45 min:** Platform Demo (Tailored)
- **45-55 min:** Objection Handling & Pricing
- **55-60 min:** Next Steps & Close

Top 10 Pain Discovery Questions

1. "Walk me through your current compliance process — who owns it and how long does it take to prepare for an audit?"
2. "What frameworks are you currently working to maintain or achieve — HIPAA, PCI DSS, SOC 2, ISO 27001?"
3. "How much are you spending annually on compliance consultants, external auditors, and manual processes?"
4. "When is your next audit scheduled, and what happens to your business if you miss that deadline?"
5. "How many people on your team are currently dedicated to compliance tasks, and what percentage of their time is compliance-related?"
6. "Are regulatory compliance gaps blocking any enterprise deals, funding rounds, or product launches right now?"
7. "How do you currently collect and store compliance evidence — spreadsheets, shared drives, GRC tools?"
8. "What cloud infrastructure are you running on — AWS, GCP, Azure, or hybrid?"
9. "Have you experienced any compliance incidents, breaches, or audit findings in the past 24 months?"
10. "If you could solve one compliance problem tomorrow, what would it be?"

05. Demo Script Flows

🟢 BASIC DEMO (30 Minutes) — SMB / First-Time Compliance

Opening Hook: *"In the next 30 minutes, I'll show you how companies like yours cut audit prep from 6 months to 3 days — without hiring a single additional compliance person."*

Scene	Duration	What to Show	Key Message
1. Dashboard Overview	5 min	Live compliance readiness score, active controls, recent alerts	"This is your compliance health at a glance — real-time, no manual updates."
2. Evidence Auto-Collection	5 min	GitHub/AWS integration pulling logs automatically	"You used to pay consultants to do this manually. Now it's automated."
3. Framework View (HIPAA or PCI DSS)	5 min	Control-by-control pass/fail status with evidence links	"Your auditor can walk through this directly — no spreadsheet needed."
4. AI Chatbot + Knowledge Base	5 min	Ask AI "What controls are failing for HIPAA?" — live answer demo	"Your team gets compliance answers in seconds, not days of research."
5. Gap Analysis Report	5 min	Export one-click audit readiness PDF report	"This is what you hand your auditor. Done. No prep needed."

Close: Pricing + Next Steps	5 min	Basic Tier at $10K/yr — ROI vs current consultant spend	"For less than one consultant day-rate per month, you get continuous compliance."

🔵 PRO DEMO (45 Minutes) — Growth Stage / Multi-Framework

Opening Hook: *"Let me show you how leading compliance teams are replacing $200K in consultant fees with one platform that monitors, detects, and fixes compliance issues automatically — 24/7."*

Scene	Duration	What to Show	Key Message
1. Multi-Framework Dashboard	7 min	HIPAA + PCI DSS + SOC 2 simultaneously — unified risk score	"One platform, three frameworks. Zero duplication of effort."
2. Auto-Remediation in Action	8 min	Trigger a misconfigured AWS security group — watch it auto-fix in real time	"This is what separates us from Vanta. We don't just flag it — we fix it."
3. API Integration Walkthrough	7 min	API documentation + sample webhook payload + DevOps pipeline integration	"Your engineering team plugs this into your existing CI/CD pipeline."
4. External Auditor Portal	8 min	Auditor read-only view with formatted evidence packages and reports	"Audit prep in 3 days. This is what you hand your QSA or CPA."

5. Real-Time Risk Score + Drift Detection	8 min	Show drift alert triggered when a control drifts out of compliance	"You're notified the moment something changes — before your auditor finds it."
Close: Live ROI Calculator	7 min	Input their consultant spend → output 5-year savings projection	"$50K/yr Pro vs $200K/yr consultant. That's $150K back in Year 1 alone."

🟣 ENTERPRISE DEMO (60 Minutes) — Large Org / Multi-Entity / FedRAMP

Opening Hook: *"What I'm going to show you will fundamentally change how your organization thinks about compliance — from a periodic fire drill to a continuous, self-healing infrastructure."*

Scene	Duration	What to Show	Key Message
1. Executive Risk Dashboard	8 min	Board-level compliance risk view with trend lines and framework health scores	"Your CISO and board see this in real-time — no quarterly compliance theater."
2. Multi-Entity Management	8 min	Separate compliance workspaces per subsidiary with unified parent view	"Perfect for holding companies, M&A scenarios, or multi-division organizations."
3. FedRAMP Readiness Roadmap	8 min	FedRAMP control mapping, 3PAO preparation checklist, roadmap timeline	"Lock in today's pricing and get first-priority access when FedRAMP launches in Year 2."

4. White-Label Portal	7 min	Branded portal with custom domain, logo, and color scheme	"Your compliance platform, your brand. Ideal for MSSPs and consultancies."
5. AI Auditor Copilot Preview	8 min	Early access: AI answering "What evidence do I need for NIST AC-3 control?"	"This replaces the $400/hr compliance consultant. Coming to Enterprise in Year 2."
6. Custom Integration Walkthrough	6 min	SIEM, ITSM, and custom API connector examples	"We connect to your entire existing infrastructure — whatever you're running."
Close: ROI + Contract Structure	15 min	Live ROI calculation + implementation timeline + multi-year discount options	"Enterprise at $80-95K/yr vs $300-500K in annual consultant fees. The math is clear."

06. Objection Handling Guide

Objection	Response Strategy	Key Pivot
"We already use Vanta/Drata"	"Great — you have tracking. But do you still chase evidence manually? Evolve Edge doesn't just flag gaps; it auto-fixes them. 85% of switchers cut workload in half in 90 days."	Proactive Remediation
"It's too expensive"	"If you spend $150K+ on consultants, our $50K Pro tier is an 8-10x ROI in year one. Let's look at the ROI calculator together."	Cost Savings

"No budget right now"	"Understood. When does your budget renew? We can align implementation with your next audit cycle to ensure you're ready by [Date]."	Urgency
"We're too small"	"Our Basic tier ($10K) is built for Series A. It gets you certified without hiring a full-time compliance officer."	Basic Tier Fit
"Need to evaluate competitors"	"Absolutely. Here is a side-by-side comparison. The key difference is Proactive Remediation vs Reactive Tracking. Want to see a live POC?"	differentiation
"Security concerns?"	"Security is our priority. We are SOC 2 Type I compliant, encrypted, and offer RBAC/SSO. We can schedule a security review."	Trust
"We handle it in-house"	"We don't replace your team; we give them a 10x multiplier. We automate the 50% of time they spend on evidence collection."	Efficiency
"Implementation is hard"	"Setup takes 2-4 weeks. Our record is 11 days. You get guided onboarding and a dedicated CSM."	Speed
"Auditor specific needs"	"We have an auditor portal. Evidence is formatted to HIPAA/SOC 2 standards. What framework is your auditor using?"	Compatibility
"Need FedRAMP"	"FedRAMP is on our Year 2-3 roadmap. Committing now locks in pricing and priority access."	Roadmap Value
"Not cloud-native"	"We integrate with AWS, GCP, Azure, and have APIs for hybrid/on-prem connectivity."	Flexibility
"What if you shut down?"	"Data is exportable anytime. We have 12-month retention clauses and a SAFE funding structure targeting Year 1 profitability."	Continuity

07. Competitive Battle Cards

vs. VANTA

Weakness: Reactive tracking only, limited auto-remediation.

Win When: Customer hates manual evidence collection.

Kill Shot: "Vanta tells you what's broken. Evolve Edge fixes it automatically."

vs. DRATA

Weakness: Manual evidence review still required, high per-seat price.

Win When: Team spending 40%+ time on manual work despite tool.

Kill Shot: "Drata monitors. Evolve Edge monitors AND patches. Don't do what AI can do."

vs. SECUREFRAME

Weakness: Consultant-dependent model.

Win When: Customer wants to reduce consultant dependency.

Kill Shot: "Secureframe sells software THEN consultants. We replace both."

vs. SPREADSHEETS

Weakness: 6-12 month cycles, 50% time waste, no visibility.

Win When: Audit is imminent and panic is setting in.

Kill Shot: "Manual compliance leaves you exposed and your team burned out."

08. Sales Pipeline Stages

Stage	Prob.	Entry Criteria	Exit Criteria / Next Action	Avg. Duration
1. PROSPECT	0%	ICP match: right industry, size, regulatory	Send personalized outreach email referencing specific	1-3 days

		pressure, cloud infra identified	pain point; connect on LinkedIn	
2. CONTACTED	10%	Outreach sent; response received OR LinkedIn connection accepted	Book 30-minute discovery call; send calendar link with agenda preview	3-7 days
3. DISCOVERY	25%	Discovery call scheduled and completed; pain confirmed; BANT partially validated	Send discovery summary email; book tailored demo; confirm decision-maker attendance	3-5 days
4. DEMO	50%	Tailored demo completed; primary pain mapped to tier features; verbal budget indicated	Send follow-up with ROI calculator; propose pilot/POC; identify legal/procurement contacts	5-10 days
5. PROPOSAL	65%	Formal SOW/Proposal sent; pricing agreed in principle; implementation timeline discussed	Follow up within 48 hrs; address any pricing objections; route to legal if needed	7-14 days
6. NEGOTIATION	80%	Legal/security review in progress; redlines received; exec sign-off identified	Resolve redlines within 5 business days; confirm onboarding start date; issue final contract	7-21 days
7. CLOSED WON ✅	100%	Contract fully executed; payment terms confirmed; Slack channel created with CS team	Kick off onboarding within 48 hrs; assign CSM; schedule Week 1 kickoff call	0-2 days

8. CLOSED LOST ❌	—	Deal stalled 30+ days, lost to competitor, or budget eliminated	Log loss reason; add to 90-day re-nurture sequence; request exit interview	—

⏱️ Average Sales Cycle by Tier

Basic	Pro	Enterprise
15–30 days	30–45 days	60–90 days
Low friction, self-service orientation	CISO + CTO typically involved	Legal + Procurement cycle
Often single decision-maker	Security review common	Multi-stakeholder alignment

09. Email Templates

📧 Template 1: Cold Outreach — HIPAA / Healthtech

```
Subject: [Company] + HIPAA Audit Prep: 6 months → 3 days

Hi [First Name],

I noticed [Company] is scaling in the healthtech space —
congrats on the recent growth.

That usually means HIPAA audit prep is becoming a massive
time sink. Most healthtech teams spend 6-12 months
preparing and $150K+ on compliance consultants just for
one audit cycle.

Evolve Edge AI cuts that to 3 days. We automate evidence
collection from your AWS/GCP environment and fix
compliance gaps automatically — no consultant required.
```

Would you be open to a 20-minute call to see how we helped similar healthtech companies save $180K+ in Year 1?

Best,
[Your Name]
Evolve Edge AI — AI-Powered Compliance Automation

📧 Template 2: Cold Outreach — PCI DSS / Fintech

Subject: How [Company] can cut PCI DSS audit prep by 85%

Hi [First Name],

Managing PCI DSS v4.0 compliance means your team is likely buried in spreadsheets and chasing evidence across your AWS, GitHub, and payment infrastructure — every single quarter.

It doesn't have to be that way.

Evolve Edge AI continuously monitors your environment, auto-collects PCI DSS evidence, and patches compliance gaps in real-time. Teams like yours go from 6-month cycles to continuous readiness in 30 days.

Do you have 15 minutes to see this working on a live environment?

Best,
[Your Name]

📧 Template 3: Follow-Up After Demo

Subject: Next steps for [Company]'s compliance automation — key resources inside

```
Hi [First Name],

Thank you for seeing Evolve Edge AI in action. Here's a
quick summary:

Your key pain points: [List 2-3 from discovery]
Recommended tier: [Basic/Pro/Enterprise] — [key reasons]
Estimated Year 1 ROI: ~$[X] saved vs current consultant
spend

Proposed next steps:
1. Formal proposal sent by [Date]
2. Security review session — [Date available?]
3. Pilot/POC kickoff — 3-4 weeks to full implementation

Any questions before we formalize the proposal? Happy to
jump on a quick call.

Best,
[Your Name]
```

📧 Template 4: Competitive Displacement (Vanta/Drata Users)

```
Subject: [Company] — are you getting everything out of
your compliance stack?

Hi [First Name],

I noticed [Company] is using [Vanta/Drata/Secureframe] —
great for getting started. But here's what I hear from
teams that switch to Evolve Edge AI:

"We had Vanta but our team was still spending 40% of
their time on manual evidence collection. Evolve Edge
automated all of that."

The core difference: [Vanta/Drata] TRACKS compliance
```

gaps. Evolve Edge FIXES them automatically.

If your compliance team is still doing manual work after implementing [Current Tool], we should talk. I can show you a side-by-side comparison in 20 minutes.

Worth a quick look?

Best,
[Your Name]

📧 Template 5: Proposal Follow-Up / Urgency Close

Subject: Your Evolve Edge proposal — a few notes before [Deadline Date]

Hi [First Name],

Following up on the proposal I sent on [Date]. I want to make sure you have everything needed to make a confident decision before [Audit Date / Budget Cycle End].

A few things worth flagging:

PRICING LOCKS at end of this quarter — current tier pricing available through [Quarter End Date].
IMPLEMENTATION LEAD TIME: Getting you fully operational before your [Audit Date] requires starting onboarding by [X Date].
STILL HAVE QUESTIONS? I can arrange a call with our technical team or Founder directly.

Happy to finalize contract terms this week if you're ready. What would be most helpful?

Best,

```
[Your Name]
Evolve Edge AI — AI-Powered Compliance Automation
```

10. Pricing & Negotiation

Discount Authority

- **AE:** Up to 5%
- **Sales Manager:** Up to 15%
- **VP Sales:** Up to 25%
- **CEO:** Custom Enterprise Pricing

Negotiation Levers

- **Multi-Year:** 10% off for 2-year, 15% off for 3-year.
- **Upfront Pay:** 5% off for annual upfront.
- **Pilot:** 30-day paid pilot (50% cost).
- **Bundles:** 20% off add-ons with Pro/Ent.

Never discount without getting something in return (Speed, Data, Case Study).

11. Success Metrics & KPIs

📊 Weekly Sales Activity Targets

50 Personalized Outreach Emails/Week	**15** Cold Calls/Week
5	**3**

$2M
ARR Target — Month 6

$5M
ARR Target — Month 9

$8M
ARR Target — Month 12 (Year 1 SOM)

12. Quick Reference Cheat Sheet

🗺️ Tier Selection Decision Tree

Question	Yes → Tier	No → Next Question

Does customer need FedRAMP, white-label, or unlimited users?	→ Enterprise ($80-95K)	Continue to next question
Does customer need API access, 2+ frameworks, or auto-remediation?	→ Pro ($50K)	Continue to next question
Is customer SMB, Series A, 1 framework, self-sufficient team?	→ Basic ($10K)	Re-qualify with discovery questions

⚡ Top 5 Objections — One-Liner Responses

Objection	One-Liner Response
"We use Vanta/Drata"	"They track. We fix. That's the difference."
"Too expensive"	"$50K vs $200K in consultants — you're saving $150K in Year 1."
"We handle compliance in-house"	"We don't replace your team. We give them 10x capacity."
"Need FedRAMP"	"Year 2 roadmap. Commit today, lock in pricing, get first access."
"Implementation is complex"	"Record implementation: 11 days. Average: 2-4 weeks."

🎯 5 Must-Ask Discovery Questions (In Order)

1. **Timeline:** "When is your next audit, and what's the business impact if you miss it?"
2. **Cost:** "How much are you spending annually on compliance consultants and manual processes?"
3. **Blocker:** "Is any enterprise deal, funding round, or product launch being blocked by compliance right now?"
4. **Current Tool:** "How do you collect and store compliance evidence today — spreadsheets, shared drives, or a GRC tool?"

5. **Owner:** "Who on your team owns compliance, and how much of their time goes to it each week?"

🏆 Top 3 Competitive Kill Shots

vs. VANTA

"Vanta tells you what's broken. Evolve Edge fixes it automatically."

vs. DRATA

"Drata monitors. We monitor, detect, AND patch. Don't pay a human to do what AI can."

vs. SECUREFRAME

"Secureframe sells software then consultants. We replace both."

📌 The Evolve Edge Difference — 3 Words

MONITOR

Real-time continuous visibility across all frameworks and integrations

DETECT

AI-powered drift detection and gap identification the moment it happens

FIX

Proactive auto-remediation closes gaps automatically — before your auditor finds them

"Competitors Monitor. Competitors Detect. Only Evolve Edge Fixes."
